#### Position

VP Acute Care/ CNO

#### Organization Name

Parrish Medical Center

### APSS

---

#### What Patient Safety Challenge does your Commitment address?

Challenge 4 - Monitoring for Opioid-induced Respiratory Depression

#### Commitment Name

FAILURE TO RESCUE: MONITORING FOR OPIOID INDUCED RESPIRATORY DEPRESSION - Update - 11.11.2019

#### How many hospitals are represented in this commitment?

Last Report	Current
1	1

#### Did you download and use the APSS in tandem with your action plan?

Yes

If yes, was the APSS valuable?

Yes

## Commitment Details

---

### Commitment Update

We recently created a tool using MEWS to understand all patients throughout PMC that may be at risk of deterioration and warrant ICU level of care. This would include post surgical patients at risk for respiratory depression both in and outside of ICU setting. We are about 1 month into the use of the tool and expect to share results at our Code Blue Committee and evolve the use of it accordingly.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome.

Documentation is critical and consistency of the documentation among providers.
