VP Acute Care/ CNO

Organization Name

Parrish Medical Center

APSS

What Patient Safety Challenge does your Commitment address?

Challenge 10 - Systematic Prevention and Resuscitation of In-hospital Cardiac Arrest

Commitment Name

Resuscitation Optimization - Update - 11.11.2019

How many hospitals are represented in this commitment?

| Last Report | Current |
|-------------|---------|
| 1 | 1 |

Did you download and use the APSS in tandem with your action plan?

Yes

If yes, was the APSS valuable?

Yes

Commitment Details

Commitment Update

PMC has created a tool that uses MEWS to provide patients at risk for deterioration and we can intervene accordingly if there is a higher level of care needed. In January 2020, PMC is rolling out RQI, a tool used for education, training and assessment of care partners for BLS and ACLS for advanced resuscitation.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome.
