APSS

What Patient Safety Challenge does your Commitment address?

Challenge 2A - Hand Hygiene

Commitment Name

Hand Hygiene - Update - 11.20.2019

How many hospitals are represented in this commitment?

Last Report	Current
1	1

Did you download and use the APSS in tandem with your action plan?

Yes

If yes, was the APSS valuable?

Yes

Commitment Details

Commitment Update

Perform assessment of location of alcohol based hand rub, and develop continuing education of hand hygiene through our trained observers. Create education for patients, family members, and visitors.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome.

We are providing performance feedback to unit leadership and front line staff on our progress.

Action Plan

Impact Details

Lives Saved

Next, make a prediction (goal) of your lives saved in the next 12 months. We'll give you the opportunity to update us next year on the actuals:

10

Lives Saved:

7

Lives Spared Harm:

12

Methodology for Determining Lives Saved:

World Health Organization (WHO) 5 Moments of Hand Hygiene. This APSS did not provide a formula to calculate lives saved or spared harm therefore it is difficult to determine accurate number. Our formula was observations done correctly over total observations done.

Acknowledgement

Yes, I acknowledge that this commitment may be used for external communication and publicly announced at the World Patient Safety, Science & Technology Summit.

Furthermore, I agree that this commitment may appear on the website of The Patient Safety Movement Foundation or the Masimo Foundation. I also give permission for my commitment to be used in support of the promotion of the World Patient Safety, Science &

Technology Summit as well as The Patient Safety Movement initiative.
