Yes

Commitment Details

Commitment Update

48 hour time out. Maintenance of C-Diff rates. Monitoring of MDRO. Implemented use of Procalcitonin as an additional tool to evaluate antimicrobial therapy. Sepsis Committee. Opportunities = reduction of days of therapy.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome.

Created/updated standing orders for the treatment of C-Diff based upon guideline updates.

Action Plan

Impact Details

Lives Saved

Methodology for Determining Lives Saved:

None, need to identify a method for calculation.

Acknowledgement

Yes, I acknowledge that this commitment may be used for external communication and publicly announced at the World Patient Safety, Science & Technology Summit.

Furthermore, I agree that this commitment may appear on the website of The Patient Safety Movement Foundation or the Masimo Foundation. I also give permission for my commitment to be used in support of the promotion of the World Patient Safety, Science & Technology Summit as well as The Patient Safety Movement initiative.
