Commitment Details

Commitment Summary

1. Collect fall and injury data to improve the performance of your fall prevention and protection from injury program: Consider tracking and collecting inpatient fall data and outcomes post-discharge to monitor the frequency and cost of morbidity and mortality. 2. Share this data with patients and families.

Action Plan

1. Phone interview to follow up the status of the patient especially with fall-related injury after discharge from hospital, including consultation and referral to related medical services and social resources, such as Post Acute Care (PAC), Longterm care 2.0. 2. While group education, we will provide and share the data and case studies of falls to strengthen the awareness of fall prevention for patient and their care-givers.
