Did you download and use the APSS in tandem with your action plan?
Yes

Patient Safety Movement Foundation | patientsafetymovement.org
If yes, was the APSS valuable?
Yes

Commitment Details

Commitment Update
The strategies described in the action plan have been implemented, which has allowed us to improve processes in the use of supplemental oxygen. The actions that will continue to be carried out to strengthen the process include: - Permanent campaign on the risks of oxygen use. - Controls for visual potentials and ophthalmological control. - Round tables where improvements in the use and control of oxygen are reviewed. - Continuous training of personnel on oxygen use and control. - Controls for visual potentials and ophthalmological control.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome.
The importance of implementing highly effective measures without lowering the controls that allow to maintain the optimum levels reinforcing it day by day with people.
