Commitment Details

Commitment Summary

Our organization will continue to work on our detection of early signs of sepsis and monitor sepsis outcomes. Since a working group was established to address this issue we have seen improved outcomes. In addition, we have established an emergency response team.

Action Plan

With our new EMR upgrade, we will evaluate a pre-built quality dashboard in the system. Standardization of the response team workflow and mission to potentially address the screening process for sepsis in patients throughout the organization Sepsis Workgroup is developing a methodology for case reviews
