Did you download and use the APSS in tandem with your action plan?
Yes
If yes, was the APSS valuable?
Yes

Commitment Details

Commitment Update
We have implemented all of the interventions in our plan. We did experience some drift and have activated our teams to hard wire our evidence-based standard work.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome. Include a sustainability plan in your over project management. It’s important to anticipate, monitor and know how you will respond to drift.
