Did you download and use the APSS in tandem with your action plan?
Yes
If yes, was the APSS valuable? 
Yes 

Commitment Details 

Commitment Update 
We have implemented all the activities in our plan. There is not consistent sharing of our falls performance in patient facing areas. This is an opportunity for us. Having families and patient involved in our process redesign has been very valuable. IN 2019, our data reflects All Falls, including near misses and fall without injury. For 2020, we will align with PSMF and other organizations such hospital Magnet journey and report and track our falls with injury.

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome. 
Patient and family members participating on the improvement teams. Anticipate and plan for drift by designing a sustainability plan and governance.
