Last Report	Current
0	2

#### Action Plan

#### Commitment Update

Orange Regional Medical Center has exceeded the goal of a 20% reduction in blood products. The program began in April of 2014 and blood usage continues to decline. Single unit transfusions are now encouraged as the standard of care for any patient not actively bleeding. New transfusion alternatives have been introduced and are now in use.

**Other**

Challenge 5 - Patient blood management

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome

**Impact Details**

Initial Commitment	Commitment Update	Project Next Year
Lives Lost	Lives Lost	Lives Lost
Lives Spared Harm Target	Actual Lives Spared Harm in last 12 months	Lives Spared Harm Target for following calendar year
Lives Saved Target	Actual Lives Saved in last 12 months (might differ from initial target)	Projected Target of Lives Saved for following calendar to try to finish commitment
	New Lives Lost (lives lost – actual lives saved)	

**Acknowledgement**

Yes, I acknowledge that this commitment may be used for external communication and publicly announced at the World Patient Safety, Science & Technology Summit. Furthermore, I agree that this commitment may appear on the website of The Patient Safety Movement Foundation or the Masimo Foundation. I also give permission for my commitment to be used in support of the promotion of the World Patient Safety, Science & Technology Summit as well as The Patient Safety Movement initiative.
