Challenge 12 - Embolic events

Commitment Start Date
01/02/2017

How Many Hospitals Will This Commitment Represent

Patient Safety Movement Foundation | patientsafetymovement.org
Commitment Summary
1.- Reduce the infections associated with health care in General Hospital of Querétaro Through the Hand Hygiene Strategy in 2017.
2.- Reduce venous thrombosis through early heparinization and hygienic dietary prophylactic measures

Commitment Description & Detail
Socialize the project to the personnel of the medical and paramedical branch attached to the General Hospital of Querétaro
To train 100% of the personnel of the medical and paramedical branch attached to General Hospital of Querétaro
Implement the Hand Hygiene culture in 100% of the operational staff.

Action Plan
Action Plan 1 Schedule briefings with operational staff during shift links. Post posters and leaflets to make the project known. Ask the area heads to extend the project information. Schedule educational sessions in order to indoctrinate the operative staff. Carry out hand hygiene assessments using a checklist to check the impact of educational sessions. Take direct observation of the 5 moments of hand hygiene and quantify them in the hospital areas. In case it is necessary to restructure the educational sessions based on the results of the evaluations and study of direct observation. Employ John Kotter’s Change Management Model (1. Create sense of urgency 2. Form a coalition 3. Create vision for change 4. Communicate vision 5. Remove obstacles 6. Ensure short-term achievements 7. Build On change 8. Anchor change to hospital culture). Sensitize operational staff through a permanent hand hygiene campaign. Generate indicators of structure, process and result that help us measure the impact and at the same time allow us to generate new improvement strategies. Action Plan 2 To identify patients at high risk of developing venous thrombosis in the emergency and hospitalization area. Use of early heparinization Prophylactic dietary hygienic measures.
