Commitment Details

Commitment Name
Difficult Airway Pre-evaluation Program

What Patient Safety Challenge does your Commitment address?
Challenge 8A - Safer airway management

Commitment Start Date
22/08/2017

How Many Hospitals Will This Commitment Represent

Patient Safety Movement Foundation | patientsafetymovement.org
**Action Plan**

We will design a program for difficult airway evaluation when a patient is admitted to the hospital. All patients will be evaluated by the risk of difficult airway. When a patient needs an artificial airway, the Anesthesiologist will come to help perform the artificial airway. At the same time, the Tracheostomy Team will stand by. If the artificial airway (endotracheal tube) cannot be performed, a tracheostomy will be performed immediately by the Tracheostomy Team. All messages will be sent by an iPhone or telephone. We will reduce the time for difficult airway team coming. We will reduce the hypoxemia time of the patient. We want to reduce the mortality when a patient receives intubation.

**Commitment Timeline**

We will integrate with our HIS health system and we make sure we will evaluate all patients.
