**Commitment Name**
Reduce Infection

**What Patient Safety Challenge does your Commitment address?**
Challenge 2A - Hand Hygiene

**Commitment Start Date**
01/02/2017

**How Many Hospitals Will This Commitment Represent**

Patient Safety Movement Foundation | patientsafetymovement.org
Action Plan

Action Plan 1 Schedule briefings with operational staff during shift links. Post posters and leaflets to make the project known. Ask the area heads to extend the project information. Schedule educational sessions in order to indoctrinate the operative staff. Carry out hand hygiene assessments using a checklist to check the impact of educational sessions. Take direct observation of the 5 moments of hand hygiene and quantify them in the hospital areas. In case it is necessary to restructure the educational sessions based on the results of the evaluations and study of direct observation. Employ John Kotter’s Change Management Model (1. Create sense of urgency 2. Form a coalition 3. Create vision for change 4. Communicate vision 5. Remove obstacles 6. Ensure short-term achievements 7. Build On change 8. Anchor change to hospital culture). Sensitize operational staff through a permanent hand hygiene campaign. Generate indicators of structure, process and result that help us measure the impact and at the same time allow us to generate new improvement strategies.
