Organization Name
Children's Hospitals' Solutions for Patient Safety

Commitment Details

Commitment Name
Eliminating Serious Harm in Children’s Hospitals - CAUTI - Update - 12.03.16

Commitment Update
As of August 2016, the Solutions for Patient Safety has decreased hospital-acquired harm in all areas the network has tackled, including a 79% reduction in serious falls, 63% reduction in adverse drug events, 47% reduction in catheter-associated urinary tract infections, and a 31% reduction in surgical site infections. SPS estimates that the network has prevented harm to over 6,800 children and saved over $120,000,000 in healthcare costs. At the same time, the network has grown from the original 8 Ohio children's hospitals to over 110 children's hospitals across the United States and Canada, all of whom are teaching and learning together.
Acknowledgement

Yes, I acknowledge that this commitment may be used for external communication and publicly announced at the World Patient Safety, Science & Technology Summit. Furthermore, I agree that this commitment may appear on the website of The Patient Safety Movement Foundation or the Masimo Foundation. I also give permission for my commitment to be used in support of the promotion of the World Patient Safety, Science & Technology Summit as well as The Patient Safety Movement initiative.
