Commitment Details

Commitment Name
Improving Neonatal Oxygen Targeting

What Patient Safety Challenge does your Commitment address?
Challenge 7A - Optimal Neonatal Oxygen Targeting

Commitment Start Date
01/01/2018

How Many Hospitals Will This Commitment Represent

Patient Safety Movement Foundation | patientsafetymovement.org
**Action Plan**
1. Clear policy outlining oxygen management and including pulse oximeter saturation targets for preterm infants 2. All new hires receive education about oxygen management and target saturation monitoring 3. Histograms are printed daily (for those infants on oxygen and at risk for ROP) and reviewed by the medical team to note those infants spending time in pulse oximeter ranges outside of the target range for their gestational age 4. Pulse oximetry targets are evaluated and modified as new literature is published 5. Oxygen blenders are used in all delivery rooms and anytime we are using oxygen (as appropriate); heated humidifiers are also used.

**Commitment Timeline**
January 1 through December 31, 2018

**Impact Details**

Lives Lost in Last Calendar Year
0

How many lives do you expect to spare from harm in the next calendar year?
0

How many lives do you expect to save in the next calendar year?
0

**Methodology for Determining Lives Saved**
Methodology for calculation of lives saved will be submitted under APSS #1.
