Commitment Details

Commitment Name
Challenge 13B: Optimizing Collaborative Care Planning in Mental Health

What Patient Safety Challenge does your Commitment address?
Challenge 13B - Collaborative Care Planning in Mental Health

Commitment Start Date
01/01/2018

How Many Hospitals Will This Commitment Represent

Action Plan
• Provide low barrier ways for staff and patients to collaborate on care planning.
  o Collaborative care planning begins on admission with nursing
  • Unit orientation
  • Community meeting and goal setting each morning
  • Group therapy schedules
  • Goals completion / follow up group daily
  o Collaborative care planning continues on admission day with nursing/ SW/CM and MD in rounds
  o Improvement opportunity: staff should be in the milieu at all times, only one person at the nurse’s desk.
    • Improves group attendance, observable patient status and communication on interventions or needs for discharge
• Promote patients to take more of an active role in identification and management of symptoms.
  o In California patients have the right of refusal, which gives choice and active participation it can result in the need for Reise hearings for appropriate treatment
  o Improvement opportunity: with staff constantly and consistently in the milieu, there is a quicker response to potential escalation where de-escalation can be successful and prn medications given to reduce violent episodes.
  • Increased awareness and insight on appropriate discharge placement to be communicated to and discussed with interdisciplinary team
  • Potential decrease LOS
  • Reduce restraint
  • Reduce seclusion
• Increase patient safety by increasing awareness of and interventions for strong negative emotional states which may precede harm of self or others.
  o First and foremost the EOC is essential
  • Ongoing and consistent treatment team meetings and daily team rounds
  • Initiation of constant observation if warranted or 1:1 if actively suicidal
  • 15 min safety checks consistently 24/7 with room checks for safety
  • Thorough room checks when warranted
  • Improvement opportunity: Staff in the milieu heightens awareness, increases patient interaction, improves overall trust and communication
    • Potential decreased LOS
    • Decrease violent episodes
    • Improve patient satisfaction
• Be evaluated with metrics such as Client Satisfaction Surveys, patient lengths of stay, patient readmission rates, Code White frequency, and seclusion room use.
  o Press Ganey patient satisfaction surveys
  o HBIPs which include:
    • SA (Drugs Alcohol Tobacco)
    • Seclusion and Restraint data

Commitment Timeline
These actions are underway and will continue through December 2018
