#### Email

60452@cch.org.tw

#### Position

deputy Quality and Safety director

#### Organization Name

Changhua Christian Hospital

#### Organization Address

Changhua County, Changhua City  
, 500  
Taiwan

### Commitment Details

---

#### How many hospitals are represented in this commitment?

Last Report	Current
1	1

#### Action Plan

Reduce Healthcare-associated Infections (HAIs): (1) Health care-associated infection risks, rates, and trends are tracked quarterly by the infection committee. (2) Processes are redesigned based on risk, rate, and trend data and information. (3) Assesses the infection control risks at least annually and takes action to focus or refocus the infection prevention

and control program.

### Commitment Update

As urinary tract infection (UTI), we refer evidence to alter Foley size from 16 Fr. To 14Fr. for general drain urine condition to mitigate harm for urine tract. We also introduce bladder scan to detect urine volume in bladder and help physician to assess whether or not remove Foley. The UTI rate improves from 0.72% to 0.48%

### Other

Challenge 2 - Healthcare-associated Infections (HAIs)

### Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome

Best practice learn from Sunnybrook Health Sciences Centre, Medical Directive for Early Removal of Urinary Catheter's in Medical Ward Patients. 2015. We introduce some medical device to improve UTI.

### Impact Details

---

Initial Commitment	Commitment Update	Project Next Year
Lives Lost 2400	Lives Lost 2400	Lives Lost 2306
Lives Spared Harm Target 90	Actual Lives Spared Harm in last 12 months 94	Lives Spared Harm Target for following calendar year 95
