Commitment Details

How many hospitals are represented in this commitment?

| Last Report | Current |
|-------------|---------|
| 1 | 1 |

Action Plan

Continue to modify and develop Failed Airway protocol, standardized airway cart/box and equipment, hardware and maintain EBP critical practices, and continue to educate team with competencies for protocol, equipment and critical practices.

Commitment Update

Developed a mandatory query in EMR to track unplanned extubation for patients undergoing mechanical ventilation via endotracheal tube to help maintain zero harm.

Other

Challenge 8A - Safer Airway Management

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome
