Challenge 2B - Catheter-associated urinary tract infections (CAUTI)

Commitment Start Date
03/12/2018

How Many Hospitals Will This Commitment Represent

Patient Safety Movement Foundation | patientsafetymovement.org
Commitment Summary
This commitment will try to eradicate urinary tract infections associated to catheters.

Commitment Description & Detail
Establish a program to eradicate urinary tract infections associated to the use of catheters, this program will be complemented by the evaluations and protocols established by the Hospital’s Board.

Action Plan
A team of sanitary workers will supervise that: - The catheters are used only on the necessary cases. - The catheters are removed as soon as possible. - The catheters are placed, maintained and removed exclusively by the health professionals capacitated for it. - The catheters are placed using antiseptic technics and sterile equipment. - The flow of urine is free of obstructions. - Once the catheter is placed it maintains a closed drainage system.

Commitment Timeline
Once our first evaluation is completed and we have more certainty of where we are at the moment, we could have a more precise timeline; although we hope to achieve our goal in less than 18 months.
