Action Plan

A Medication Safety Team is in place. All medication errors are reviewed for trends, severity of harm and actions for improvement. Opioid use is under review with the intent to reduce use as appropriate and to prevent ADEs related to opioid use.

Commitment Update

Medication Safety Team continues to review medication errors reported by staff. ADEs related to opioid use are reviewed for opportunity to improve the system such as revising order sets for clearer Prescribing Instructions, dose limits,... The organization has focus on improving errors related to chemotherapy in the past year and has made significant

improvement to the electronic health record as well as communication and workflow.

Other

Challenge 3A - Medication Errors

Please describe any best practices your organization has learned through your commitment and share valuable lessons or challenges that were overcome

Lessons learned: For chemotherapy: 1. Have as many orders and order sets/treatment plans pre-built and tested in the electronic health record as possible. 2. Have clear medication names and route with appropriate dosing prefilled for each route 3. Utilize hard stops for upper dosing limits when possible for high risk drugs, routes (such as intrathecal,...)

Challenges: 1. New electronic health record so many workflows/processes need to be worked on. Staff is not as proficient in using the electronic health record. 2. Low number of reported incidents from staff

Impact Details

Initial Commitment	Commitment Update	Project Next Year
Lives Lost 0	Lives Lost 0	Lives Lost
Lives Spared Harm Target 0	Actual Lives Spared Harm in last 12 months 0	Lives Spared Harm Target for following calendar year 0
Lives Saved Target 0	Actual Lives Saved in last 12 months (might differ from initial target) 0	Projected Target of Lives Saved for following calendar to try to finish commitment 0
	New Lives Lost (lives lost – actual lives saved)	

Acknowledgement

Yes, I acknowledge that this commitment may be used for external communication and publicly announced at the World Patient Safety, Science & Technology Summit.

Furthermore, I agree that this commitment may appear on the website of The Patient Safety Movement Foundation or the Masimo Foundation. I also give permission for my commitment to be used in support of the promotion of the World Patient Safety, Science &

Technology Summit as well as The Patient Safety Movement initiative.
