Mr. Joe Kiani
Founder and Chairman
Patient Safety Movement
52 Discovery
Irvine, CA 92618

Dear Joe,

I write to recognize the Patient Safety Movement Foundation as it begins its Fifth Annual World Patient Safety, Science & Technology Summit.

It is my understanding that the annual summit brings together hospitals, health care professionals, medical information technology companies, patient advocates, and public policy makers to discuss solutions to improve patient safety challenges. As your organization works toward its patient safety goals, broad collaborations such as these will be critical.

Again, thank you for highlighting this important issue and your ongoing efforts to keep patients safe.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeff Flake".
