

PuraCath Medical
Commitment to Action

PuraCath Medical is happy to announce their support of the Patient Safety Movement Foundation (PSMF) and its mission to eliminate preventable deaths by 2020 (OX2020).

PuraCath Medical is dedicated to improving disinfection time and efficacy of catheter connections to enhance the quality of life for both patients and healthcare providers. Our novel and easy-to-use technology keeps patients healthy and protected from infection while minimizing dependence on user compliance. PuraCath Medical strives to establish a new standard of care for connection disinfection technology.

As a committed organization, PuraCath Medical will demonstrate partnership with the PSMF by:

1. Spreading the PSMF mission of eliminating preventable patient deaths in hospitals
2. Recruiting applicable members within PuraCath's network to participate in the Patient Safety Movement Foundation's CLABSI workgroup in order to ensure PSMF's Actionable Patient Safety Solutions (APSS) represent best clinical practices to date and showcase a diverse group of experts
3. Asking hospital organizations working with PuraCath Medical to make a Commitment to a patient safety initiative or process, whether that be one aligned with the Patient Safety Movement Foundation's 13 core challenges or an alternative challenge they wish to share with the Movement's network of likeminded individuals.

We at PuraCath Medical are excited to announce our commitment to the Patient Safety Movement Foundation to reduce preventable death and improve patient safety.

Signed,

PuraCath Medical, Inc.
