

NCPDP Commitment to Action

NCPDP (National Council for Prescription Drug Programs) is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and PSMF's mission to eliminate preventable deaths by 2020 (OX2020).

NCPDP is a not-for-profit, multi-stakeholder forum for developing and promoting industry standards and business solutions that improve patient safety and health outcomes, while also decreasing costs.

As a committed organization, NCPDP will demonstrate alliance with PSMF by the following:

1. Spread the mission of OX2020 to NCPDP members
2. Ask members from the healthcare technology sector to sign the Open Data Pledge, agreeing to share their data in the name of patient safety.
3. Designate NCPDP member(s) to participate in PSMF's Actionable Patient Safety Solutions (APSS) workgroups related to medication errors, prescription drugs and antimicrobial stewardship.

We at the NCPDP are excited to announce our commitment to improve patient safety.
