

**EHCO
Commitment to Action**

EHCO is pleased to announce their support of the Patient Safety Movement Foundation (PSMF) and mission to eliminate preventable deaths by 2020 (OX2020).

EHCO's purpose is to increase safety, reduce avoidable harm and eliminate unnecessary deaths, suffering and costs at hospitals nationwide by leading the change in hand hygiene measurement policy and guidelines at accreditation organizations, government agencies, health insurers and hospitals.

As a committed organization, EHCO will demonstrate alliance with PSMF by:

1. Spreading the mission of OX2020 to EHCO members. PSMF will supply EHCO with a printed card to disseminate through EHCO staff/team.
2. Annually disseminating Actionable Patient Safety Solution (APSS) to EHCO members.
3. Participating in APSS workgroups, as aligned to EHCO focus on safety, to ensure latest clinical information, literature and technology has been integrated.
4. Asking customers who are leaders working in hospitals to implement APSS, or share their own successful processes, to eliminate preventable deaths. And, make their own commitments to action to the Patient Safety Movement Foundation.
5. Logo placement on PSMF website under Committed Partners
6. PSMF will introduce EHCO's leadership as appropriate to individuals and organizations that can influence hospital standards and guidelines.

We at EHCO are excited to announce our commitment to improve patient safety.

Signed,

EHCO
