

Genomi-k Commitment to Action Letter

Genomi-k is pleased to announce their support of the Patient Safety Movement Foundation and mission to eliminate preventable deaths by 2020 (0X2020).

Since 2007, Genomi-k has worked jointly with healthcare institutions in Mexico offering the management of their metabolic newborn screening programs. From today, we have the capacity and ability to commit ourselves to the zero-preventable deaths goal.

Genomi-k's mission is to contribute in the wholesome growth and health of all family members through early screening and timely intervention. To fulfill this mission, the company is going to expand the current critical control points, strengthen the web-system into a better tool for the management of a complex screening program.

As a commitment organization, Genomi-k will demonstrate alliance with PSMF by:

1. Spreading the mission of 0X2020 through Genomi-k members and partners
2. Annually disseminating PSMF's Actionable Patient Safety Solutions (APSS) to Genomi-k members and partners
3. Working with the PSMF to help identify subject matter experts to join our APSS workgroups (*i.e Neonatal Safety*)
4. Sharing progress with the PSMF regarding Genomi-k initiatives, engaging the PSMF in the work where possible.
5. Continue to strengthen current and build new relations that will help deliver PSMF mission.

We at Genomi-k are excited to announce our commitment to improve patient safety.

Signed,

Genomi-K
