Taiwan Healthcare Quality Association Commitment to Action

The Taiwan Healthcare Quality Association (THQA) is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and its mission to eliminate preventable deaths by 2020 (0X2020).

Our mission is to enhance the healthcare standard and promotion of medical quality in Taiwan. All medical centers and most regional hospitals in Taiwan are the corporate members, and there are 1180 members in the association. Dr. Chan Liao Mingi, President of Taiwan Patient Safety Culture Club (TPSCC), invited 19 hospitals with Chief Executive Officer of the Health and Welfare Department and Director of Health Bureau, Taichung City Government to declare on achieving the goal of ZERO preventable deaths by 2020 on June 3rd, 2017. THQA was very honored to be invited to attend this great event. This year, we will arrange three courses of sharing experiences on the promotion of PSMF's Actionable Patient Safety Solutions (APSS) (0X2020). The main theme of this year's annual meeting in August will be Challenge 1, Culture of Safety and Challenge 3, Medication Errors.

As a committed organization, THQA will demonstrate alliance with the PSMF by the following:

1. Spreading the mission of 0X2020 to THQA members and networks
2. Helping to identify subject matter experts within the THA network to contribute to the development of the PSMF's Actionable Patient Safety Solution's (APSS) workgroups
3. Making a commitment on behalf of the **80+** hospitals in THQA's network around major initiatives to improve patient safety to share with the PSMF's larger network
4. To arrange courses of patient safety improvement regarding 13 APSS and sharing experience on reduce preventable deaths between hospitals.

We at the Taiwan Healthcare Quality Association are excited to announce our commitment to the Patient Safety Movement Foundation to reduce preventable death and improve patient safety.

Signed,

Taiwan Healthcare Quality Association
