

CONGRESSMAN THOMAS MASSIE

January 27, 2017

Joe Kiani  
Founder & Chairman  
Patient Safety Movement  
52 Discovery  
Irvine, CA 92618

Dear Joe,

On behalf of the patients of the state of Kentucky and myself, I am writing in support of the ongoing work of the Patient Safety Movement Foundation towards the laudable goal of eliminating preventable deaths in US hospitals by the year 2020.

Patient safety is a critical, bipartisan, issue and I believe that with increased transparency in the healthcare marketplace – as well as a constructive dialogue in Congress – it is possible to dramatically improve the quality of healthcare for all Americans as well as eliminate preventable deaths caused by medical errors.

This letter of support is signed in the faith that through ongoing commitments from hospitals, healthcare professionals, healthcare technology companies, and patient advocates to work together to come up with and implement new processes we can get to ZERO by 2020.

Sincerely,

A handwritten signature in blue ink that reads "Thomas Massie".

Congressman Thomas Massie  
Member of the Committee on Science, Space, and Technology  
in the U.S. House of Representatives
