

Unison Healthcare Group
Commitment to Action Letter

The Unison Healthcare Group is happy to announce their support of the Patient Safety Movement Foundation (PSMF) and mission to eliminate preventable deaths by 2020 (OX2020).

Unison Healthcare Group (UHG) is a total solution and service provider in the healthcare industry with more than 60 years in the market and providing services to over 45 countries. Our aim to select high-end medical systems from all over the world to enhance Taiwan's medical quality; at the same time, implementing our mission "To create happiness through healthcare".

In recent years, we endeavored to develop our own concept of precision medicine, one of the subjects is "precision therapy" which focuses on medical robotics for surgery usage. By setting "pre-operative plan", moreover, conforming to the features "intra-operative adjustment" and "controllable accuracy", the process reaches our objective of "precision therapy", it assists surgeons to operate surgery with precision as well as bettering patient's safety.

At various occasions, we would deliver the precision medicine concepts to our group members, our partners and our customers; as it is in accordance with our core value "We care about life." However, moving forward, we would also include the concept of Patient Safety Movement in both, our external and internal activities held by UHG and wherever possible and appropriate, we would include specific description to be disclosed in our publications.

As a committed organization, the Unison Healthcare Group will demonstrate alliance with PSMF by the following:

Spread the mission of OX2020 to Unison Healthcare Group members
Annually publicize our commitment of Actionable Patient Safety Solutions (APSS) to Unison Healthcare Group

We at the Unison Healthcare Group are excited to announce this commitment.

Signed,
Unison Healthcare Group
