Commitment to Action

Eloquest Healthcare is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and its mission to eliminate preventable deaths by 2020 (OX2020).

At Eloquest Healthcare we strive to provide solutions that augment Hospital Acquired Condition-prevention strategies to provide better outcomes, higher quality support, and lower cost of care. Our mission is to passionately leverage every opportunity to provide our stakeholders with valued and trusted service, specialized products and expertise that engender compassionate care.

As a committed organization, Eloquest Healthcare will demonstrate alliance with the PSMF by the following:

1. Spreading the mission of OX2020 to Eloquest Healthcare members and network
2. Participating in the PSMF's Actionable Patient Safety Solution's (APSS) workgroups and helping to identify subject matter experts to contribute to the development of interested topics (*i.e. device associated bloodstream infections, post-operative wound contamination*)
3. Asking Eloquest Healthcare customers who are leaders working in the hospitals to implement APSS, or share their own successful processes, to eliminate preventable deaths. And, make their own commitments to action to the PSMF
4. Partnering on the PSMF's APSS webinars around related patient safety topics of interest to Eloquest Healthcare.

We at Eloquest Healthcare are excited to announce our commitment to the Patient Safety Movement Foundation to reduce preventable death and improve patient safety.

Signed,

A handwritten signature in black ink that reads "Timothy P. O'Halla". The signature is written in a cursive style with a long horizontal line extending from the end of the name.
