

**The MEDNAX Center for Research, Education, Quality and Safety
Commitment to Action**

The MEDNAX Center for Research, Education, Quality and Safety (MEDNAX) is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and its mission to eliminate preventable deaths by 2020 (0X2020).

MEDNAX, through its subsidiaries, is a national medical group that comprises the nation's leading providers of neonatal, anesthesia, maternal-fetal and pediatric medical and surgical subspecialty services. Founded in 1979 as a neonatal physician group, MEDNAX has built a national presence by remaining focused on one simple belief: Take great care of the patient, every day and in every way.™

Founded by and built by physicians, MEDNAX has invested in the clinical, information and management systems necessary for physicians to improve patient outcomes through a series of evidence-based initiatives.

As a committed organization, MEDNAX CREQS will demonstrate alliance with the PSMF by the following:

1. Spreading the mission of 0X2020 to the MEDNAX providers and network.
2. Participating in PSMF's Actionable Patient Safety Solution's (APSS) workgroups and helping to identify subject matter experts to contribute to the development of aligned topics (*i.e. Neonatal Safety*)
3. Encouraging MEDNAX providers who are leaders working in the hospitals to implement APSS, or share their own successful processes, that are eliminating preventable deaths in order to participate as a member of PSMF's shared learning network.
4. Jointly partnering, promoting and supporting webinars around related patient safety topics of interest to MEDNAX CREQS and PSMF.

We at the MEDNAX are excited to announce our commitment to the Patient Safety Movement Foundation to reduce preventable death and improve patient safety.

Signed,

The MEDNAX Center for Research, Education, Quality and Safety
