Dear Joe:

Mallinckrodt Pharmaceuticals is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and mission to eliminate preventable patient deaths by 2020 (0X2020).

Mallinckrodt is a global specialty pharmaceutical company dedicated to its mission: Managing Complexity. Improving Lives. Based outside of London and with U.S. principal offices in Bedminster, N.J., and St. Louis, Mallinckrodt is building a diverse, durable portfolio of drug and device therapies that deliver strong value for patients, healthcare providers and payers. Patient safety is our highest priority and is pre-eminent in every decision made. The company and its employees are committed to fostering a healthcare environment free of harm, keeping patients safe across the healthcare setting.

As a committed organization, Mallinckrodt will demonstrate alliance with PSMF to advance mutual goals and interests by:

1. Communicating and amplifying the mission of 0X2020, broadly as well as through its interactions with internal and external stakeholders;
2. Designating Mallinckrodt employees who can serve as active and engaged participants in PSMF's Actionable Patient Safety Solutions (APSS) workgroups, in part to support use of the latest clinical information, literature and technology toward finding solutions;
3. Annually disseminating solutions and key shared learnings to Mallinckrodt internal and external stakeholders; and
4. Continue to support patient/caregiver and professional education on safety issues and best practices toward the shared commitment, with a focus on the NICU and hospital settings.

We are honored to work with PSMF and alongside other partners in this commitment.

Sincerely,
