

## MyHealth.US Commitment to Action

MyHealth.US is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and its mission to eliminate preventable deaths in-hospitals around the world.

MyHealth.US is committed to people everywhere getting well and staying healthy faster with better outcomes, fewer errors and more affordably.

PSMF through its many partnerships, events, research, communiques, training and workgroups, legislative and industry outreach and direct actions with payers, providers, patients, manufacturers, educators, NGOs and governments works to eliminate preventable deaths in-hospitals globally quickly and permanently.

MyHealth.US will demonstrate its alliance with PSMF and this commitment to action by:

1. Sharing the PSMF's mission throughout MyHealth.US' network of clients, users and partners, and
2. Participating in the PSMF's Actionable Patient Safety Solutions (APSS) workgroups, and
3. Helping to identify and recruit subject matter experts to contribute to the success of PSMF's mission, and
4. Requesting leaders within hospitals to implement APSS where appropriate and to share their own successful processes to eliminate preventable deaths, and
5. Encouraging others to make their own commitment to action with the PSMF, and
6. Communicating regularly with PSMF regarding events and opportunities for MyHealth.US and/or PSMF to publicly and privately share PSMF's mission and APSS.

We at MyHealth.US are excited and honored to announce our commitment to improve patient safety with the Patient Safety Movement Foundation.

Signed,
