### Canadian Patient Safety Institute Commitment to Action

The Canadian Patient Safety Institute (CPSI) is pleased to announce its support of the Patient Safety Movement Foundation (PSMF) and its mission to eliminate preventable deaths in hospitals.

Established by Health Canada, the Canadian Patient Safety Institute's (CPSI) vision is that "Canada has the safest healthcare in the world" and its mission is "to inspire and advance a culture committed to sustained improvement for safer healthcare". CPSI works with governments, health organizations, leaders, healthcare providers, patients and the public to inspire extraordinary improvement in patient safety and quality. As a federally funded, pan-Canadian health organization, CPSI's mandate is to provide a leadership role in building a culture of patient safety and quality improvement across Canada through coordination and collaboration, promotion of best practices, and advice on effective strategies to improve patient safety. CPSI is also a World Health Organization Collaborating Centre for Patient Safety and Patient Engagement.

As a committed organization, the Canadian Patient Safety Institute will demonstrate alliance with the PSMF by the following:

1. Spreading the mission of PSMF through CPSI members and network
2. Participating in the PSMF's Actionable Patient Safety Solution's (APSS) workgroup(s) and helping to identify subject matter experts to contribute to the development of interested topics. Examples include but are not limited to:
  - a. *Culture of Safety*
  - b. *Medication Safety*
  - c. *Patient Safety Curriculum*
  - d. *Person and Family Engagement*
3. Sharing CPSI initiatives with the Patient Safety Movement Foundation's larger network
4. Cross-collaborating around patient advocacy and empowerment to share patient stories and resources for patients across both CPSI and PSMF networks, as appropriate to both audiences.

We at the Canadian Patient Safety Institute are excited to announce our commitment to the Patient Safety Movement Foundation to reduce preventable death and improve patient safety.

Signed,

Canadian Patient Safety Institute
