

WHITLEY PATIENT ADVOCATES COMMITMENT TO ACTION

Whitley Patient Advocates (WPA) is pleased to announce their support of the Patient Safety Movement Foundation (PSMF) and mission to eliminate preventable patient deaths across the globe.

We at WPA know there are many missed opportunities and options available to patients that go unutilized. With serious diagnoses come a whirlwind of emotions and a multitude of questions that can cloud an individual thought process of what to do and what avenues are available to them and their families. Our goal as patient advocates is to provide the most appropriate and informative services possible to quickly get patients through the maze of healthcare services. Preventing suffering and supporting quality and quantity of life.

As a committed organization, Whitley Patient Advocates will demonstrate alliance with PSMF by:

1. Spreading the PSMF's mission and vision to Whitley Patient Advocates' members and network.
2. Participating in the PSMF's Actionable Patient Safety Solutions (APSS) relevant workgroups and helping to identify subject matter experts to contribute to the development of aligned topics. (*i.e. Person and Family Engagement & Culture of safety*)
3. Annually disseminating the PSMF's APSS White Patient Advocates' members and network.
4. Encouraging Whitley Patient Advocates' members and network to submit their own stories to help drive the PSMF's narrative forward.

We at Whitley Patient Advocates are excited to announce our commitment to improve patient safety.

Sincerely

CEO of Whitley Patient Advocates

Marilyn Whitley MSN, RN, NE-BC, BCPA
