

Zaggo Commitment to Action

Zaggo is pleased to announce their support of the Patient Safety Movement Foundation (PSMF) and mission to eliminate preventable patient deaths across the globe by 2030.

Roberta Carson started [Zaggo](#), a non-profit organization, to help patients and family caregivers manage illnesses and injuries, after her experience as caregiver for her teenage son Zachary during his 27-month battle with terminal brain cancer. Zaggo's mission is to provide patients and families with the educational information, tools, and resources they need to become empowered, engaged, effective members of their medical teams. Zaggo aims to help patients receive the best possible care and outcomes, while reducing their risk of medical errors and other patient safety hazards.

As a committed organization, Zaggo will demonstrate alliance with PSMF by:

1. Spreading the PSMF's mission and vision to Zaggo members and network.
2. Participating in the PSMF's Actionable Patient Safety Solutions (APSS) relevant workgroups and helping to identify subject matter experts to contribute to the development of aligned topics. Examples include, but are not limited to:
 - a. *Hand-off Communications*
 - b. *Person and Family Engagement*
3. Annually disseminating the PSMF's APSS to Zaggo members and network.
4. Jointly partnering and supporting projects around related patient safety topics of interest. (*i.e. Blog articles around relevant patient safety topics*)
5. Encouraging Zaggo members and network to submit their own stories to help drive the PSMF's narrative forward.
6. Staying in touch regarding upcoming events, educational opportunities and speaking engagements pertaining to either parties.

We at the Zaggo are excited to announce our commitment to improve patient safety.

Signed,

Zaggo
