

Confirmed Consent Commitment to Action

Confirmed Consent is pleased to announce their support of the Patient Safety Movement Foundation (PSMF) and mission to eliminate preventable patient deaths across the globe by 2030.

Confirmed Consent is an interactive peri-operative consent platform focused on patient empowerment and safety via standardized delivery of the consent material in a neutral setting so that each and every consent is truly an informed one. We fundamentally feel that increased patient education, engagement, and satisfaction will lead to decreased morbidity and mortality.

As a committed organization, Confirmed Consent will demonstrate alliance with PSMF by:

1. Spreading the PSMF's mission and vision to Confirmed Consent members and network.
2. Participating in the PSMF's Actionable Patient Safety Solutions (APSS) relevant workgroups and helping to identify subject matter experts to contribute to the development of aligned topics.
3. Staying in touch regarding upcoming events, educational opportunities and speaking engagements pertaining to either parties.
4. Encourage Confirmed Consent's network of leaders to participate in the PSMF's initiatives or share their own successful processes that are eliminating preventable patient deaths within the PSMF's larger shared network.

We at Confirmed Consent are excited to announce our commitment to improve patient safety.

Signed,

Confirmed Consent
